

NITIN KUMAR

9911660055 | nitinkwork18@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Full Stack and **Cloud/DevOps Engineer** with hands-on experience building scalable **web applications** and **deploying them** on **AWS** using Docker, Kubernetes, Terraform, and **CI/CD** pipelines. Skilled in automating infrastructure, **managing cloud resources**, and delivering **high-availability applications end-to-end**.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, Bash
- **Frontend:** HTML/CSS, React.js, Redux, Next.js 13, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** MySQL, PostgreSQL, MongoDB (Mongoose)
- **Cloud Platforms:** AWS (EC2, IAM, S3, VPC, Lambda, EKS, ECR, CloudWatch)
- **Containers & Orchestration:** Docker, Docker Compose, Kubernetes, Helm
- **CI/CD & Automation:** Jenkins, GitHub Actions, CI/CD Pipelines
- **Infrastructure as Code:** Terraform, Ansible
- **Monitoring & Observability:** Prometheus, Grafana
- **Developer & Cloud Tools:** Git, GitHub, VS Code, Postman, Nexus Repository Manager

COURSES & TRAINING

- **Full Stack Web Development – Coincent** | [Link](#)
- **JavaScript (ES6+, DOM, Async) – Udemy** | [Link](#)
- **React (Components, Hooks, State Management) – Udemy** | [Link](#)
- **Node.js & REST APIs – Udemy** | [Link](#)
- **AWS Cloud Computing (EC2, S3, Lambda, IAM) – Udemy** | [Link](#)
- **Java & OOP – Udemy** | [Link](#)
- **System Architecture & Large-Scale Systems Design – Udemy** | [Link](#) | [Link](#)
- **UI/UX Product Design Bootcamp (Figma) – Udemy** | [Link](#)

WORK EXPERIENCE

MERN DEVELOPER Intern | [DECENT GLOBAL OUTSOURCING](#)

Aug 2024 - Oct 2024

- Collaborated with cross-functional teams to design and deliver new features, resulting in a 15% improvement in user engagement.
- Integrated external third-party APIs and data sources into core modules, achieving a 25% increase in overall operational efficiency.
- Identified, debugged, and resolved 100+ critical application bugs, reducing system downtime by 30% and improving stability.
- Built responsive, reusable UI components with React.js and managed complex application state using Redux for a smoother user experience.
- Developed RESTful API endpoints with Node.js and Express.js, handling CRUD operations and data validation against MongoDB collections.
- Used Git and GitHub for version control and collaborative development within an Agile team following sprint-based delivery cycles.

Hope Physician (Healthcare Platform) | hopephysicians.com

- Developed and enhanced frontend and backend modules using React, Node.js, and REST APIs, contributing to a 20% improvement in application performance.
- Implemented secure data handling and role-based access control, improving data reliability and supporting end-to-end patient and healthcare operations.
- Optimized application workflows, reducing manual processing time by 25% and improving overall system efficiency.
- Assisted in deploying and maintaining application features in a live production environment, achieving 99.9% uptime.
- Collaborated with senior developers to refactor code, reducing bug recurrence by 30%.

Rural Samriddhi Logistics Platform | Full Stack Developer & Delivery Managerrsamriddhi.com | app.rsamriddhi.com

- Led design and development of a web-based Management System and Employee Management System (EMS) for an integrated transportation and supply chain organization.
- Built role-based access dashboards for Admin, HR, Manager, and Employee roles, enabling secure management of deliveries, inventory, and operational workflows.
- Developed scalable applications using the MERN stack, ensuring secure data flow and high system performance.
- Designed a camera-based, location-aware attendance system with automated date/time logging, reducing proxy attendance and improving record accuracy.
- Coordinated with stakeholders to translate business requirements into technical solutions, improving transparency and operational reliability.

PROJECTS**E-COMMERCE | ecommerce.nitinkdevs.com | React, Redux, Node/Express, Mongo/Mongoose, Stripe**

- Designed and developed a responsive frontend using React.js and Redux, providing an intuitive user interface and efficient state management leading to 30% increase in customer satisfaction scores.
- Utilized Node.js and Express.js on the backend to deliver high-performance applications capable of real-time processing leading to a 50% decrease in average response time.
- Implemented Stripe for reliable and secure payment transactions.

NATOURS | natours.nitinkdevs.com | HTML(PUG), MongoDB/Mongoose, MVC, Node, Stripe

- Engineered scalable Node.js applications by mastering core concepts such as the event loop, streams, and modules, directly contributed to a reduction of server response times by 50 milliseconds per request.
- Designed a RESTful API with advanced features (filtering, sorting, aliasing, pagination), improving data retrieval efficiency by 40%.
- Optimized performance with Mongoose and deployed MongoDB on local and cloud platforms (Atlas).
- Implemented the MVC architecture for clean code organization and integrated email functionalities using tools like Mail-trap and SendGrid to enhance user communication.

EDUCATION**Bachelor of Technology, Computer Science and Engineering | CGPA: 8.0****Aug 2021 - Jun 2025**

Galgotias University, Greater Noida, Uttar Pradesh

12th Grade | CGPA: 8.0**Aug 2017 - Jun 2018**

Spring Meadows Public School, Delhi
